Project Design Phase-II
Data Flow Diagram & User Stories

Data	8 April 2026
Team ID	SWTID-2026-7471
Project Name	Automating employee data
Maximum Marks	4 Marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

Key Components of DFD

1. **External Entity**

   Source or destination of data (e.g., Customer)

2. **Process**

   Transforms data (e.g., “Process Order”)

3. **Data Store**

   Where data is stored (e.g., Database)

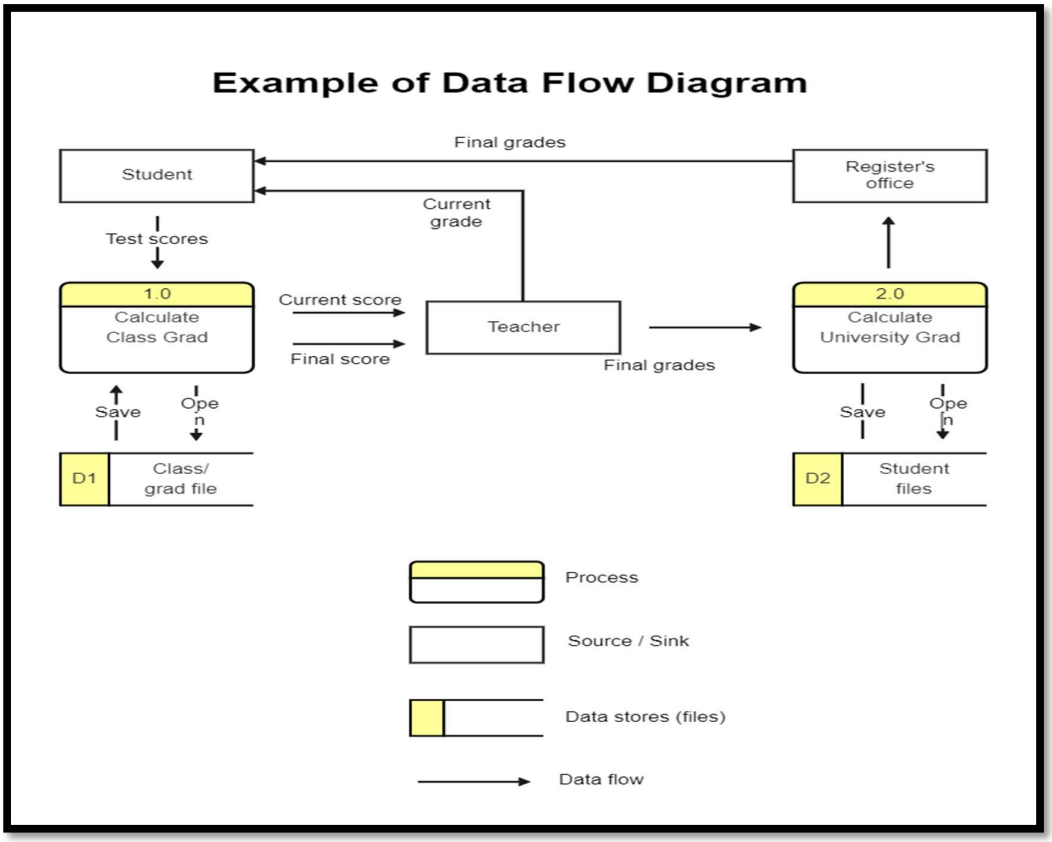
4. **Data Flow**

   Arrows showing movement of data

User Stories

A **User Story** is a short, simple description of a feature from the user’s perspective.

Example:



User Type	Functional Requirement (Epic)	User Story Number	User Story/Task	Acceptance Criteria	Priority	Release
Customer (Mobile user)	Registration	USN-1	As a user,I can register for the application by entering my email,password,and confirming my password.	I can access my account/deshboard	High	Sprint-1
Customer web user	login	USN-2	As a user,I will receive confirmation email once I have registered for the application.	I can receive confirmation email &click confirm	High	Sprint-1

Customer care executive	login	USN-3	As a user,I can register for the application through Feedback	I can register & access the dashboard with Facebook Login	Low	Sprint-2
adminstrator	login	USN-4	As a user, I can register for the application through Gmail	I can receive	Medium	Sprint-1
